Demystify AI with Practical Tips for Litigators

The question isn't whether to adopt AI—the definitive answer is yes. The question is about strategically deciding how and when. From filing motions to predicting jury behavior, see how the effective use of AI will enhance every step of your litigation process.

National speaker Paul J. Unger shows you how cutting-edge AI tools can maximize your success in and out of the courtroom. Streamline case preparation, document management, trial strategy, and more.

Plus, get practical tips from a panel of litigators who have successfully incorporated AI into their practice. And hear from two judges who are early AI adopters and will help you understand the risks and benefits.

You will be able to:

- Know which AI tools to use and why, including ChatGPT, Perplexity, and other generative AI systems
- Use AI tools to draft faster motions, briefs, interrogatories, and key documents with ease
- Write killer AI prompts for tasks like caselaw research, deposition prep, and more
- Hear directly from judges on generative AI's effect on the judicial system
- Utilize Microsoft Copilot to maximize Word, Excel, Outlook, and more
